

Year 7 Geography

Worksheet 4

The pictogram shows shop rental cost per square meter per annum

All of the shops (sites A, B and C) are 120m². Calculate the annual rental for each shop.

Site	A	B	C
Cost per annum			

How important is rental cost for a coffee shop business?

Use worksheets 2 and 3 to help decide which site Maya should pick? Give the reasons why you think the site you have selected is the best site.

If there are any problems with the site you have selected, explain why you think it is the best site despite these problems.

You could also justify your decision by pointing out problems with the other two sites.

Maya should choose site _____. This because...
