

# Year 7 Geography

## Worksheet 5

Use the column on the right to put the jobs in rank order, with 1 being the most helpful to Maya for opening her business.

Job role	Rank in order of importance for Maya. 1 = most important 5 = least important
<b>Insurance brokers</b> work with business owners to make sure they get insurance that meets their needs at the best price.	
<b>Building contractors</b> organise construction projects. They arrange for workers onsite to do specific jobs, monitor the progress of the project and ensure everyone follows proper safety guidelines.	
<b>Financial advisers</b> provide clients with specialist advice on how to manage their money. They advise on loans, investment and all aspects of money management.	
<b>Marketing executives</b> promote businesses with marketing campaigns. They improve brand awareness and help with creating adverts for online, radio, TV or print.	
<b>Interior designers</b> work with businesses to ensure that space is used in a logical and functional way. They also ensure the design looks appealing for potential customers. The job involves a combination of creativity and engineering understanding.	

Complete the timeline to decide in which order Maya should talk to people in each of the job roles above.
