KEY BENEFITS OF BEING A GSP PARTNER

Building disability confidence

Hosting a visually impaired intern can help to increase your organisation's awareness of how best to cater for disabled employees. With our guidance, training, support straightforward advice and new perspectives you will be ready to improve your organisation's approaches towards Visual impairments.

Funding

Up to 50% of a potential intern's salary could be funded

Support

TPT will support you every step of the way from helping to select an outstanding candidate to developing their workplace skills through our vigorous L&D programme.

Customer relatability

Your organisation is more than likely to work with or serve disabled people. No matter a person's disability the relatability some customers or clients may find knowing you're an open-minded and forward-thinking organisation will be truly beneficial. For example, the Purple Pound is worth an estimated £249 billion a year* meaning that there is potential commercial gain to be made.

The Purple Pound relates to the spending power of disabled households in the UK.

WHY SHOULD YOU GET INVOLVED?

Partially-sighted people are an underrepresented group within the UK workforce.

The GSP will allow your organisation to tap into this vastly talented and tenacious pool of potential candidates whom you may have struggled to reach through traditional selection and recruitment methods.

The GSP can support interns in any potential role, some former GSP interns have held successful positions in:

- Marketing
- Finance
- Social media
- Customer services
- Technology

As a GSP partner organisation, you'll realise the understated talents that visually impaired people have and how they can become valuable members of your team and an asset to your organisation

Many of those with visual impairments become advocates for their host organisations shedding positive light on their experiences as well as promoting an employer as truly open to diversity and equality
