

A Compass evaluation enables education settings to quickly and easily evaluate their careers activity against the eight [Gatsby Benchmarks](#).

We recommend completing a Compass evaluation every term to effectively track and monitor your setting's progress against achieving the eight Gatsby Benchmarks. A Compass evaluation takes approximately 30 minutes to complete.

Further guidance on how to complete a Compass evaluation can be found on the [Resource Directory](#).

To find out more about how our system calculates your results, there is further information at the end of this document.

Gatsby Benchmark 8 : Personal guidance

These questions are about Gatsby Benchmark 8: Personal guidance.

Every learner should have opportunities for guidance meetings with a careers adviser, who could be internal (a member of staff), or external, provided they are trained to an appropriate level. These meetings should be available for all learners whenever significant study or career choices are being made, and should be scheduled to meet their individual needs. The careers leader should work closely with the careers adviser, Special Educational Needs and Disabilities Co-ordinator (SENDCO) and other key staff to ensure personal guidance is effective and embedded in the careers programme.

Please review each statement carefully and select the response that most accurately reflects current practices within your setting.

Question 8.1

What proportion of pupils have had at least one personal guidance meeting with a qualified careers adviser by the end of Year 11 (between Year 7 and Year 11)?

**Thank you for completing your Compass evaluation.
Well done on evaluating your setting's careers provision.**

Scoring Summary for the Compass Evaluation

The Compass evaluation uses a scoring system to measure progress and confidence across different areas of your setting's careers provision. Each response option is linked to a score, with higher scores reflecting stronger delivery, confidence or coverage.

How scoring works

- Every question has a set of response options (e.g. Yes/No, confidence levels or percentages of learners reached)
- Each option is assigned a score (e.g. Yes = 1, No = 0, All learners = 4, Some learners = 2 etc)
- Your setting's scores against each question are added together to give you a total score for each Gatsby Benchmark
- To fully achieve each benchmark, the total score for that benchmark must be 100%

Some questions may not apply to every setting, if you do not currently have learners in a particular year group for example.

- In such cases, the question is marked "Not applicable"
- This means the question is removed from your setting's total possible score
- Your score is calculated only from the questions that are relevant to your setting
